SWINE LIVESTOCK
OPTIMIZED MANAGEMENT

MATISSOFT, the most complete automation software and control tools, is now a MANAGED SERVICE PROVIDER of METAFARMS in Canada, the world-class solution in swine management.

DATA THAT
WORKS FOR YOU

- Get **real-time oversight across your production system**.

- Gain **complete daily visibility into your barns, offline and online.**

- Make timely data-driven decisions with **key performance metrics, and reports per producer, site, barn and user.**

- Save time with **automated data capture** and by avoiding duplicate data entry.

FROM SMALL TO LARGE
INTEGRATED OPERATIONS

Thanks to its next generation production gateway platform, MetaFarms enables producers to **track performance**, **compare to industry benchmarks** and **make data-driven** decisions. From a single unit farm to large integrated operations, the platform was designed and developed to meet the demands of modern swine production of all types and sizes.

NUMBERS
THAT SPEAK
VOLUMES

Active management of
42 000 000 pigs & **2 300 000 sows**
